grasping this vision honored by judaism christianity and islam alike includes recognizing the dangers of zealous violence the illusions of current crusading and the promise of peaceful coexistence under international law

bringing critical attention to a particular set of science fiction and fantasy films larry and andy wachowski s the matrix george lucas star wars saga and joss whedon s avengers this book utilizes a wide ranging set of critical tools to illuminate their political ideologies while also examining any resistant and complicating turns or byways the films may provide what they all have in common ideologically is that they or at least

the genres they belong to tend to be regarded as belonging to politically conservative frames of sociocultural reference with the star wars saga however this idea is shown to be superficial and weak

this book investigates the uses of crusader medievalism the memory of the crusades and crusading rhetoric and imagery in britain from walter scott s the talisman 1825 to the end of the second world war it seeks to understand why and when the crusades and crusading were popular how they fitted with other cultural trends of the victorian and edwardian eras how their use was affected by the turmoil of the first world war and whether they were differently employed in the interwar years and in the 1939 45 conflict building on existing studies and contributing the fruits of fresh research it brings together examples of the uses of the crusades from disparate contexts and integrates them into the story of the rise and fall crusader medievalism in britain

grasping this vision honored by judaism christianity and islam alike includes recognizing the dangers of zealous violence the illusions of current crusading and the promise of peaceful coexistence under international law jacket

crusading in the twelfth century was less a series of discrete events than a manifestation of an endemic phenomenon that touched almost every aspect of life at that time the defense of christendom and the recovery of the holy land were widely shared objectives thousands of men and not a few women participated in the crusades including not only those who took the cross but many others who shared the costs and losses as well as the triumphs of the crusaders this volume contains not a narrative account of the crusades in the twelfth century but a group of studies illustrating many aspects of crusading that are often passed over in narrative histories including the courses and historiography of the crusades their background ideology and finances and how they were seen in europe included are revised and updated versions of giles constable s classic essays on medieval crusading along with two major new studies on the cross of the crusaders and the fourth crusade and two excursuses on the terminology of crusading and the numbering of the crusades they provide an opportunity to meet some individual crusaders such as odo arpinus whose remarkable career carried him from france to the east and back again and whose legendary exploits in the holy land were recorded in the old french crusade cycle other studies take the reader to the boundaries of christendom in spain and portugal and in eastern germany where the campaigns against the wends formed part of the wider crusading movement together they show the range and depth of crusading at that time and its influence on the broader history of the period

political correctness idealizing the oppressed and an affinity for authoritarian and charismatic leaders are all parts of what ellis calls the dark side of the left
